SAFETY DATA SHEET

Product Name: HGCC Multipurpose Cleaner

Date of Issue: FEB 2026

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

SUPPLIER:	Protection Brands		
ADDRESS:	Level 9, Nexus Court, Mulgrave, VIC, 3170 Australia		
Trade Name:	HGCC Multipurpose Cleaner		
TELEPHONE:	1800 737 624	**email:**	auto.admin@protectionbrands.com.au
EMERGENCY TELEPHONE:	1300 774 575 in Australia (M-F 7am-7pm)	**Synonym:**	PBCITS
Substance:	Surfactant blend	**Product Use:**	General purpose spot cleaner
Creation Date:	FEB 2026	**Revision Date:**	FEB 2031

SECTION 2 – HAZARDS IDENTIFICATION

Classification of the substance or mixture	
Dangerous Goods	Not classified as Dangerous Goods according to the Australian Dangerous Goods (ADG) Code.
GHS Classification	Not classified as hazardous according to Safe Work Australia criteria (GHS 7).
Poisons Schedule	None allocated.
Label elements	
GHS label pictograms	None required.
Signal word	None allocated.
Hazard statement(s)	
	None allocated.
Precautionary statement(s): General	
P102	Keep out of reach of children.
P103	Read carefully and follow all instructions.
Precautionary statement(s): Prevention	
	None allocated.
Precautionary statement(s): Response	
	None allocated.
Precautionary statement(s): Storage	
	Store in accordance with local regulations.
Precautionary statement(s): Disposal	
P501	Dispose of contents/container in accordance with local regulations.

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredients:	CAS Number:	Proportion (%w/w):
Ingredients determined to be non-hazardous at the concentrations used (including water) | Various | To 100%		

SECTION 4 – FIRST AID MEASURES	
Inhalation	First aid not normally required. If required, remove to fresh air. Obtain medical attention if symptoms occur.
Skin contact	First aid not normally required. Remove contaminated clothing and flush skin/hair with running water if necessary. Seek medical attention if irritation occurs.
Eye contact	If irritation occurs, irrigate with copious water for 15 minutes. Seek medical assistance if irritation persists.
Ingestion	Do not induce vomiting. Rinse mouth thoroughly with water. Give water if conscious. Seek medical advice if required.
Advice to Doctor	Treat symptomatically.
First Aid Facilities	Eye wash station and normal washroom facilities.

SECTION 5 – FIRE FIGHTING MEASURES	
Fire and Explosion Hazards	Non-flammable liquid. Residual material may burn after evaporation of the aqueous component.
Extinguishing Media	Use extinguishing media suitable for the surrounding fire.
Fire Fighting	Cool heat-exposed containers with water spray. Wear SCBA if exposed to decomposition products.
Flash Point	Does not flash.
Hazchem	None allocated.

SECTION 6 – ACCIDENTAL RELEASE MEASURES	
Emergency Procedures	Wear PPE as appropriate. Wipe up minor spills. For major spills, contain, prevent entry to drains/waterways, absorb with inert material and dispose in labelled containers.

SECTION 7 – HANDLING AND STORAGE	
Handling	Wear protective clothing where exposure risk exists. Avoid incompatible materials. Keep containers closed. Do not eat, drink or smoke while handling. Wash hands after use.
Storage	Store in a cool, dry, well-ventilated place, out of direct sunlight, away from foodstuffs and incompatible materials. Keep containers upright and closed.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION	
Exposure Limits	No occupational exposure limit established for the product under Safe Work Australia workplace exposure standards.
Ventilation	No special requirements; ensure adequate ventilation.
Personal Protective Equipment	No PPE normally required for small quantities. Use suitable PPE for bulk handling, decanting or spill clean-up.
Eye Protection 	Safety glasses for bulk handling or spill clean-up; comply with AS/NZS 1337.
Hand Protection 	Impervious gloves such as butyl rubber, natural latex, neoprene, PVC or nitrile for bulk handling; comply with AS/NZS 2161.
Body Protection 	Suitable protective workwear for bulk handling, including overalls, apron and boots where appropriate.
Respirator	If engineering controls are inadequate, use suitable mist respiratory protection selected in accordance with AS/NZS 1715 and 1716.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Liquid	**Colour**	Orange
Odour	Characteristic orange	**Specific Gravity**	Not available
Boiling Point	Not available	**Freezing Point**	Not available
Vapour Pressure	Not available	**Vapour Density**	Not available
Flash Point	Non-flammable	**Flammable Limits**	Not applicable
Water Solubility	Miscible	**pH**	8.0

SECTION 10 – STABILITY AND REACTIVITY

Reactivity	Product is considered stable; hazardous polymerisation will not occur.
Conditions to Avoid	Extremes of temperature and direct sunlight.
Incompatibilities	Oxidising agents such as nitrates, oxidising acids and chlorine bleaches.
Hazardous Decomposition	May produce carbon dioxide and other pyrolysis products typical of burning organic material.

SECTION 11 – TOXICOLOGICAL INFORMATION

POTENTIAL HEALTH EFFECTS

Inhalation	Not expected to produce adverse health effects under normal conditions of use.
Skin contact	Not expected to be irritating under normal use; prolonged contact may cause mild irritation.
Eye contact	Direct eye contact may cause transient discomfort, tearing or redness.
Ingestion	Not classified as harmful by ingestion; may cause gastrointestinal discomfort, nausea or vomiting if swallowed.
Chronic exposure	None known.
Toxicology Information	Acute toxicity classification criteria are not met based on supplied SDS information.
Carcinogen Status	No significant ingredient identified in the supplied SDS as carcinogenic.
Respiratory Sensitisation	Not expected to be a respiratory sensitiser.
Skin Sensitisation	Not expected to be a skin sensitiser.
Germ cell mutagenicity	Not considered a mutagenic hazard.
Reproductive Toxicity	Not considered toxic to reproduction.
STOT-single exposure	Not expected to cause STOT following single exposure.
STOT-repeated exposure	Not expected to cause STOT following repeated exposure.
Aspiration Hazard	Not expected to be an aspiration hazard.

SECTION 12 – ECOLOGICAL INFORMATION

Eco-toxicity Product	No information available.
Persistence and degradability	No information available.
Bio accumulative potential	No information available.
Mobility in soil	No information available.
Other adverse effects	No information available.
Environmental Protection	Do not discharge into waterways.

SECTION 13 – DISPOSAL CONSIDERATIONS

	Dispose of waste and empty containers in accordance with applicable local and national regulations. Prevent entry into drains or watercourses.

SECTION 14 – TRANSPORT INFORMATION

ADG	Not classified as Dangerous Goods according to the Australian Dangerous Goods (ADG) Code.
Marine Pollutant	No
Not regulated as Dangerous Goods under ADG.	
UN Number	None allocated.
Proper Shipping Name	None allocated.
Class	None allocated.
HAZCHEM Code	None allocated.
Packing Group	None allocated.
ERG	None allocated.
Limited Quantity	None allocated.
Segregation	None allocated.

SECTION 15 – REGULATORY INFORMATION

GHS Classification	Not classified as hazardous under Australian GHS 7.
SUSMP	None allocated.
ADG Code	Not classified as Dangerous Goods according to the ADG Code.
AICS	Inventory status was not provided in the supplied New Zealand SDS. Verify AIIC/AICIS status before final regulatory issue.

SECTION 16 – OTHER INFORMATION

Issue Date	FEB 2026
Version Number	V1 - Australian GHS 7 conversion
Abbreviations and acronyms	ADG: Australian Code for the Transport of Dangerous Goods by Road and Rail. AICIS: Australian Industrial Chemicals Introduction Scheme. AIIC: Australian Inventory of Industrial Chemicals. CAS: Chemical Abstracts Service Registry Number. GHS: Globally Harmonized System of Classification and Labelling of Chemicals. HAZCHEM: Emergency action code for dangerous goods. HCIS: Hazardous Chemical Information System. SDS: Safety Data Sheet. STEL: Short Term Exposure Limit. SUSMP: Standard for the Uniform Scheduling of Medicines and Poisons. SWA: Safe Work Australia. TWA: Time Weighted Average. UN: United Nations.
Literature references	Model Code of Practice: Preparation of Safety Data Sheets for Hazardous Chemicals (Safe Work Australia). Globally Harmonized System of Classification and Labelling of Chemicals (GHS), 7th revised edition, as adopted in Australia. Safe Work Australia - Hazardous Chemical Information System (HCIS) and Workplace Exposure Standards. Australian Code for the Transport of Dangerous Goods by Road and Rail (ADG Code). Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP). Australian Industrial Chemicals Introduction Scheme (AICIS) / Australian Inventory of Industrial Chemicals (AIIC). Safety Data Sheets for individual raw materials - suppliers.
Disclaimer	This SDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.
